

Miraculous Benefit
RECEIVED FROM
Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsell Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from catarrh which affected my heart in the worst form. My limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free, or money refunded. Book on diseases of the heart and nervous free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

ELY'S CREAM BALM is a positive cure. Apply to the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail 1 sample 10c. by mail. C. Y. BOSTON, 100 N. 3rd St., New York City.

NO DISSENTING VOICE

\$50,000,000 Unanimously Voted For Defensive Purposes.

ENTHUSIASTIC HOUSE SCENES

Nothing is Yet Officially Known as to the Cause of the Maine Disaster—Bodies Urging Mr. Lee to Resign. President Said to Be Considering a Flying Squadron.

Washington, March 9.—In a spirit of patriotism, with eloquent words ringing in their ears, every member of the house of representatives yesterday responded to the president's first call to meet the Spanish situation by casting his vote for a bill placing in the president's hands \$50,000,000, to be expended at his discretion for the national defense. Party lines were swept away and with a unanimous voice congress voted its confidence in the administration. Many members who were paired with absent colleagues took the responsibility of breaking their pairs—an unprecedented thing in legislative annals—in order that they might go on record in support of this vast appropriation to maintain the dignity and honor of their country. Speaker Reed, who, as the presiding officer, seldom votes only in case of a tie, had his name called and voted in his capacity as a representative.

Scene of Enthusiasm. The scene of enthusiasm which greeted the announcement of the vote—ayes 311; nays none, has seldom been paralleled in the house. All day long the galleries were jammed with enthusiastic spectators applauding to the echo the sterling patriotism of the words of eloquence which were uttered by the members on the floor. All the speeches were brief. With one acclaim, members from the north and south, the east and west, the states and the territories, battle scarred veterans of the Union and the confederate armies, all joined in proclaiming their support of the country's chief magistrate in the face of a possible foreign war.

General Grosvenor of Ohio said that if war did not come, the \$50,000,000 appropriated by this bill would be wisely expended if it only served to show the world that when threatened from without the hearts of the American people beat as one.

One Dissident Note. In the whole debate there was only a slight discordant note, caused by the speech of General Bingham of Pennsylvania, a gallant soldier who served with distinction under Hancock. He spoke too conservatively for the aroused temper of the house and when he insisted that our relations with Spain were as friendly as they had been for years, many members hissed him.

While almost every member who spoke deprecated the possibility of war, a wide divergence of opinion as to how close were hostilities manifested itself in the debate. The general contention by the majority, among them leaders on both sides, was that this appropriation, by preparing for war, would prove the surest guarantee of peace. Others insisted that war's alarms would soon be heard, and Mr. Mann of Illinois declared that war actually existed in all save name.

Immediately after the vote was announced the bill appropriating \$50,180,000 was sent to the senate and that body referred it to the appropriation committee.

CONSUL GENERAL LEE.

He "Will Stick by the Ship Until the Clouds Roll By."

Havana, March 9.—Some persons here in order to increase the excitement, are urging General Fitzhugh Lee to resign, but the consul general of the United States said to a correspondent: "I will stick by the ship of state until the clouds roll by."

The resignation of Walter B. Baker, United States consul at Sagua La Grande, was confirmed yesterday. Mr. Baker has been on the verge of nervous prostration. Alexander O. Brice, the United States consul at Matanzas says he cannot stand much longer the strain under which he has lived the last two years.

The Bache left yesterday for the Tortugas islands to resume her coast survey work. The Fern will be replaced by the United States cruiser Montgomery which is to arrive here today. The crew of the Fern have been unable to wash her decks recently owing to the filthiness of the harbor water, and must clean up at sea in order to avoid sickness among the crew.

FLYING SQUADRON.
President Said to Be Considering One. Commodore Schley Will Command.

Washington, March 9.—The administration is considering the formation of a flying squadron. Naval officers have planned such, and the matter is before the president. Such a squadron will assemble either at New York or Hampton Roads in 10 days. The squadron will be composed of the fleetest and most powerful aggregation of warships ever commanded by an American officer. The armored cruiser Brooklyn, 21 knots, is to be the flagship; the Minneapolis, 23 knots; the Columbia, 21 knots, and the St. Paul and St. Louis of the American line, 21 knots each, will compose the remainder of the fleet. Commodore Winfield Scott Schley, of Arctic fame, will be in command.

General Wilson. Key West, March 9.—General Wilson, who arrived here yesterday, it is understood, will return to Tampa today and will not visit the Tortugas.

NOTHING OFFICIALLY.
Is Yet Known as to the Cause of the Maine Disaster.

Washington, March 9.—Three weeks ago last night the Maine was blown up. As it was last week at this time, so it is now; nothing is known officially as to the cause of the disaster. The court is hard at work; that is all that is known at the navy department. It is not even known when it may be expected to finish its work. But the importance of its report does not diminish in the slightest degree by the lapse of time, and in the midst of diversions caused by more recent happenings, the more thoughtful officials have not lost sight of the fact that when the report of the court of inquiry comes to the navy department the government may be face to face with another and vital issue.

Senator Du Bose called at the state department late in the day and had a half hour's conference with Judge Day. He brought no dispatches and the talk did not relate to the present strained condition of affairs, but was rather an informal discussion of the condition of affairs in Cuba.

The new Spanish minister, Senor Polo y Bernabe, will arrive in New York today on a German line steamer. He is expected at the legation tomorrow and arrangements will then be made for the presentation of his credentials to President McKinley.

FRIENDLY WORDS.
Great Britain Should Express Her Determination to the United States.

London, March 9.—Sir George Williams Des Voeux, formerly governor of the Bahamas islands and more recently governor of Hong Kong, in an interview on the far eastern crisis said Great Britain ought to immediately seize the opportunity of expressing cordial sympathy with the United States in her efforts to secure autonomy for Cuba.

The time, he said, was opportune to express the determination of Great Britain to aid the United States with her fleet against any attack upon her coast. This, Sir George Des Voeux added, would prevent war with Spain and would make general the American sympathy with Great Britain which was now only partial. This, he concluded, would be enormously to the advantage of both nations, while also assisting in the solution of the Chinese question. He remarked in conclusion that such an opportunity of "announcing the two English speaking nations may never recur."

Sold Explosives to Weyler. Birmingham, Ala., March 9.—Captain G. J. Hamlin, general manager of the Dittman Powder company of New York is visiting in this city. He confirms the report that the Dittman company sold explosives to Weyler's army in November, 1896. Captain Hamlin does not know for what purpose the explosives were used.

OHIO LEGISLATURE.
Bill Introduced to Tax Paid-Up Building and Loan Stock.

Columbus, March 9.—The senate has passed Mr. Williams' bill requiring capitalized and incorporated companies in the state to have three citizens on the board of directors and when not capitalized a majority.

Among the bills introduced was one by Mr. Hess to tax paid-up building and loan stock and requiring the secretaries to return the names of such stockholders to the county auditor.

Mr. Dutton passed up a bill giving state banks the same privilege as national banks in electing directors. It increases the maximum number of directors from five to nine.

Dr. Draper Elected.
New York, March 9.—Dr. Andrew S. Draper, president of the University of Illinois, was yesterday elected city superintendent of schools at a salary of \$8,000 a year, receiving 14 votes of members of the school board to one vote cast for W. L. Maxwell, the present superintendent of schools at Brookings.

HE IS AN EMBEZZLER

Secretary of Western Joint Traffic Bureau Short In His Accounts.

KILLED AT HIS DOORSTEPS

William O. Hutchins, a Jeweler, Shot Down by a Burglar Who Was Robbing His Residence—Four Miners Buried Alive Under Tons of Earth—Mine Caved In.

Chicago, March 9.—An investigation into the accounts of the Western Joint Traffic bureau, which has been going on for several days, has disclosed the fact that William H. Hosmer, secretary of the bureau, was short to the amount of about \$3,000. The disclosure incidentally may lead to the dissolution of the bureau and its reorganization.

Mr. Hosmer, after being faced with the proofs of his defalcation, made a confession to J. W. Midegley, chairman of the bureau. He admitted having taken the money, but claimed he had not intended to keep it and would ultimately have returned it. He said he had used the money in small amounts when he needed it for household expenses.

Hosmer has not been arrested. There is no disposition to prosecute him, and he is engaged in assisting the experts examine the books. He has asked Mr. Midegley to grant him another chance—to give him a clerkship—so that he may save from his salary to replace what he has taken. Already he has given Mr. Midegley a check for \$1,000 for that purpose.

KILLED AT HIS DOORSTEP.

William O. Hutchins Shot Down by a Burglar.

Providence, March 9.—William O. Hutchins, one of the best known manufacturing jewelers in the east, was shot and almost instantly killed by a burglar who had entered his residence early last night. The tragedy occurred in front of the victim's own doorstep. The burglar entered the house by a rear door and went to the servant's room from which he stole \$18. He then went into Mrs. Hutchins' room and was looking for valuables there when Mrs. Hutchins entered. She gave the alarm and her husband grasped a cane and started for the intruder. The burglar escaped to the front porch and dropped to the ground. Mr. Hutchins was there to meet him. He struck the fellow a blow with his cane. The burglar drew his revolver and shot Mr. Hutchins just over the heart. The wounded man lived just 15 minutes.

BURIED ALIVE.

Four Miners Lost Their Lives by the Caving In of a Mine.

Galena, Kan., March 9.—Ernest Wright, William Walker and a son of Walker's and an unknown miner were buried alive late yesterday by the caving in of a mine on the Bonanza grounds. A large force of men were at work trying to get them out, but it is not likely that the bodies can be recovered for some time, as they are under tons of earth.

IN EXTRA SESSION.

Governor Pingree Issues a Proclamation Convening the Legislature.

Lansing, Mich., March 9.—Governor Pingree has issued a proclamation convening the legislature in extra session March 22. He cites provisions of the state constitution and the legislative rule of taxation, all assessments to be on property at its cash value.

Continuing, the governor charges that the spirit, if not the letter, of these constitutional provisions is being violated laws having been passed by which railroad, express, telephone and telegraph companies, now owning at least a third of the property within the state are required to pay only about 1-20 part of the taxes.

Governor Pingree urges that taxation in many parts of the state has become in the nature of confiscation and that the situation has become unbearable.

PECULIAR REASONS.

An Aged Couple Ask the Law to Separate Them.

Chicago, March 9.—A peculiar reason for a divorce was given yesterday in the suit brought by Mrs. Catherine O'Reilly, wife of Eugene O'Reilly, a retired merchant worth upwards of \$50,000. Mrs. O'Reilly alleges that for 12 years her husband has not spoken a word to her, although living under the same roof. This, she alleges, is tantamount to desertion. In addition she charges cruelty. Mr. O'Reilly has filed a cross bill alleging cruelty and voluntary desertion. Both are nearly 70 years old and have been married 35 years.

\$5,000,000 FIRE.

Almost Complete Destruction of Manila, Philippine Islands.

Vancouver, B. C., March 9.—Advices from the Orient brought by the steamship Empress of India, tell of the almost complete destruction of Manila, Philippine islands, by fire. Property to the value of \$5,000,000 was destroyed.

Women, Boys and Girls Struck.

Cleveland, March 9.—About 400 women, boys and girls are affected by a strike at the Beckman woolen mills. They demand an increase of 10 per cent in wages. The company had agreed to grant the increase on April 1. The strikers insisted that it be given at once. This being refused the strike was ordered.

AERIAL TORPEDO BOAT.

New Invention Which May Cut a Figure in Case of War.

Sedalia, Mo., March 9.—Thomas J. Brown, train dispatcher for the Missouri Pacific railway at this point, has been notified by the commissioner of patents that he had been granted a patent on an aluminum aerial torpedo boat that may figure quite extensively in the event of war between the United States and Spain.

Mr. Brown began work at his invention two years ago and his application for a patent was filed in March, 1897. The boat is constructed of aluminum, is 120 feet long and 15 feet in diameter. Yesterday Mr. Brown instructed his attorneys at Washington to call upon Secretary Long of the United States navy, and make a proposition for the sale of the invention. Mr. Brown says: "We can deliver to the government at Washington an aluminum aerial torpedo ship, equipped for service, one capable of crossing the ocean if necessary, carrying enough explosives to sink any battleship or reduce a fortification; one capable of speed to exceed 20 knots per hour, for at least a week's time. The building expenses will not exceed \$10,000 each and can, after arrangements are made for such work, be completed in two or three weeks."

TAX COLLECTORS.

They Hold Up Six National Banks in Chicago.

Chicago, March 9.—Several Chicago bankers had a novel experience with tax collectors yesterday. Two men entered the First National bank and went directly to the office of the president. Without ceremony they addressed the vice president, D. R. Forgan, and informed him they wanted \$85,237.12 in cash as quickly as he could produce it. They told Mr. Forgan that unless he paid over the money without delay they would shut the doors of the bank and help themselves.

It is a case of the collection of taxes under a decision of the superior court, which refused to sustain an injunction asked for by the six banks against South Town Collector Ernest. The bill sought to enjoin the collection on the ground that the assessments were excessive and fraudulent. The banks affected were the First National, Fort Dearborn National, Northwestern National, Globe National, Bankers' National and National Bank of America. The bankers expressed great surprise, but all that was necessary was a sight of the warrant and the money was paid, but under protest.

MEXICAN PLACER GOLD.

Nuggets Worth \$6 Found Near the Old Coronado Mine.

El Paso, Tex., March 9.—The best specimens of placer gold of which there is definite information were brought in to Casas Grandes, Mex., by G. Rummel of San Antonio, Tex. These specimens are small nuggets, averaging in size from a pinhead to a pea. Mr. Rummel says that Mike Hennessey, a prospector working near him on William Julian's claim since Julian left, has found nuggets worth \$5 to \$6 each.

This gold comes from gray placers near the old Coronado mine, 14 miles from Tepaleche. Rummel has prospected at Cripple Creek, Ouray and Leadville, and left Colorado last November to come down here. He has two partners, William Wiley of Riverside, Cal., and F. P. Blackman of Los Angeles, both old prospectors, and he says this is the finest country for prospecting he has seen any where. His partners remain at work, and he will return soon with supplies.

EXPRESS AGENT ABSCONDS.

Takes With Him a Package of \$10,000 Confided to His Care.

Orrville, O., March 9.—The night agent of the Adams Express company at this place has absconded, taking with him an express package containing \$10,000. This package of money was sent by a Cleveland bank to a bank in Akron, but the package was carried through to this place. The day agent here received a message seeking information concerning this package of money and what had become of it. He wired them that he knew nothing of it as there was no record of it being received here, and that the night agent, Charles Cotton, was missing from his home and family and his whereabouts unknown. The Adams Express company offer a reward for his capture.

IGALLS CALLED HOME.

President of the Big Four Compelled to Cut His Mexican Trip Short.

Mexico City, March 9.—President M. E. Igalls of the Big Four and Chesapeake and Ohio railways, after a stay here of some days, returned home last night, having received advices which call him to his post of duty on account of the imminence of war.

John Jacob Astor and party, who came up Sunday night from Vera Cruz on Mr. Astor's yacht, leave today in a private car for Tampico, where they will again board their yacht and sail for New Orleans, whence they will proceed by rail to New York.

Philadelphia Record.

Philadelphia, March 9.—A syndicate formed by George H. Earle, Jr., and R. Charles C. Cook has taken up the loans of \$5,000, secured by bonds and stock of the Record Publishing company and held by P. A. B. Widener, William L. Elkins, James McMan and the Remble estate. These securities, it is claimed, represent a control of the Record property.

Weather.

Indians and Ohio—Fair, followed by cloudy and threatening weather.

NO DISSENTING VOICE

\$50,000,000 Unanimously Voted For Defensive Purposes.

ENTHUSIASTIC HOUSE SCENES

Nothing is yet officially known as to the cause of the Maine Disaster—Bury Bodies Urging Mr. Lee to Resign. President Said to Be Considering a Flying Squadron.

Washington, March 9.—In a spirit of patriotism, with eloquent words ringing in their ears, every member of the house of representatives yesterday responded to the president's first call to meet the Spanish situation by casting their vote for a bill placing in the president's hands \$50,000,000, to be expended at his discretion for the national defense. Party lines were swept away and with a unanimous voice congress voted its confidence in the administration. Many members who were paired with absent colleagues took the responsibility of breaking their pairs—an unprecedented thing in legislative annals—in order that they might go on record in support of this vast appropriation to maintain the dignity and honor of their country. Speaker Reed, who, as the presiding officer, seldom votes only in case of a tie, had his name called and voted in his capacity as a representative.

The scene of enthusiasm which greeted the announcement of the vote—ayes 311; nays none, has seldom been paralleled in the house. All day long the galleries were jammed with enthusiastic spectators applauding to the echo the sterling patriotism of the words of eloquence which were uttered by the members on the floor. All the speeches were brief. In all 59 speeches were made. With one acclaim, members from the north and south, the east and west, the states and the territories, battle scarred veterans of the Union and the confederate armies, all joined in proclaiming their support of the country's chief magistrate in the face of a possible foreign war.

General Grosvenor of Ohio said that if war did not come, the \$50,000,000 appropriated by this bill would be wisely expended if it only served to show the world that when threatened from without the hearts of the American people beat as one.

One Discontented Note. In the whole debate there was only a slight discordant note, caused by the speech of General Bingham of Pennsylvania, a gallant soldier who served with distinction under Hancock. He spoke too conservatively for the aroused temper of the house and when he insisted that our relations with Spain were as friendly as they had been for years, many members hissed him.

While almost every member who spoke deprecated the possibility of war, a wide divergence of opinion as to how close were hostilities manifested itself in the debate. The general contention by the majority, among them leaders on both sides, was that this appropriation, by preparing for war, would prove the surest guarantee of peace. Others insisted that war's alarms would soon be heard, and Mr. Mann of Illinois declared that war actually existed in all save name.

Immediately after the vote was announced the bill appropriating \$50,183,000 was sent to the senate and that body referred it to the appropriation committee.

CONSUL GENERAL LEE.

He "Will Stick By the Ship Until the Clouds Roll By."

Havana, March 9.—Some persons here in order to increase the excitement, are urging General Fitzhugh Lee to resign, but the consular general of the United States said to a correspondent: "I will stick by the ship of state until the clouds roll by."

The resignation of Walter B. Baker, United States consul at Sagua La Grande, was confirmed yesterday. Mr. Baker has been on the verge of nervous prostration. Alexander O. Brice, the United States consul at Matanzas says he cannot stand much longer the strain under which he has lived the last two years.

The Bachs left yesterday for the Tortugas islands to resume her coast survey work. The Fern will be replaced by the United States cruiser Montgomery which is to arrive here today. The crew of the Fern have been unable to wash her decks recently owing to the filthiness of the harbor water, and must clean up at sea in order to avoid sickness among the crew.

FLYING SQUADRON.

President Said to Be Considering One. Commodore Schley Will Command.

Washington, March 9.—The administration is considering the formation of a flying squadron. Naval officers have planned such, and the matter is before the president. Such a squadron will be composed of the fleetest and most powerful aggregation of warships ever commanded by an American officer. The armored cruiser Brooklyn, 21 knots, is to be the flagship; the Minneapolis, 23 knots; the Columbia, 21 knots, and the St. Paul and St. Louis of the American line, 21 knots each, will complete the remainder of the fleet. Commodore Winfield Scott Schley, of Arctic fame, will be in command.

General Wilson.

Key West, March 9.—General Wilson, who arrived here yesterday, it is understood, will return to Tampa today and will not visit the Tortugas.

NOTHING OFFICIALLY.

Is Yet Known as to the Cause of the Maine Disaster.

Washington, March 9.—Three weeks ago last night the Maine was blown up. As it was last week at this time, so it is now; nothing is known officially as to the cause of the disaster. The court is hard at work; that is all that is known at the navy department. It is not even known when it may be expected to finish its work. But the importance of its report does not diminish in the slightest degree by the lapse of time, and in the midst of diversions caused by more recent happenings, the more thoughtful officials have not lost sight of the fact that when the report of the court of inquiry comes to the navy department the government may be face to face with another vital issue.

Senator Du Bose said at the state department late yesterday and had a half hour's conference with Judge Day. He brought no dispatches and the talk did not relate to the present strained condition of affairs, but was rather an informal discussion of the condition of affairs in Cuba.

The new Spanish minister, Senator Polo y Bernabe, will arrive in New York today on a German line steamer. He is expected at the legation tomorrow and arrangements will then be made for the presentation of his credentials to President McKinley.

FRIENDLY WORDS.

Great Britain Should Express Her Determination to the United States.

London, March 9.—Sir George Williams Des Voeux, formerly governor of the Bahamas islands and more recently governor of Hong Kong, in an interview on the far eastern crisis said Great Britain ought to immediately seize the opportunity of expressing cordial sympathy with the United States in her efforts to secure autonomy for Cuba.

The time, he said, was opportune to express the determination of Great Britain to aid the United States with her fleet against any attack upon her coast. This Sir George Des Voeux added, would prevent war with Spain and would make general the American sympathy with Great Britain which was now only partial. This, he concluded, would be enormously to the advantage of both nations, while also assisting in the solution of the Chinese question. He remarked in conclusion that such an opportunity of "announcing the two English speaking nations may never recur."

Sold Explosives to Weyer.

Birmingham, Ala., March 9.—Captain G. J. Hamilton, general manager of the Dittman Powder company of New York is visiting in this city. He confirmed the report that the Dittman company sold explosives to Weyer's agent on November, 1896. Captain Hamilton does not know for what purpose the explosives were used.

OHIO LEGISLATURE.

Bill Introduced to Tax Paid-Up Building and Loan Stock.

Columbus, March 9.—The senate has passed Mr. Williams' bill pairing capitalized and incorporated companies in the state to have three citations on the board of directors and when not capitalized a majority.

Among the bills introduced was one by Mr. Hess to tax paid-up building and loan stock and requiring the secretaries to return the names of such stockholders to the county auditor.

Mr. Dutton passed a bill giving state banks the same privilege as national banks in electing directors. It increases the maximum number of directors from five to nine.

Dr. Draper Elected.

New York, March 9.—Dr. Andrew S. Draper, president of the University of Illinois, was yesterday elected city superintendent of schools at a salary of \$8,000 a year, receiving 14 votes of members of the school board to one vote cast for W. H. Maxwell, the present superintendent of schools at Brooklyn.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I had a pain in my side all the time, had but little appetite and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite and increased my weight."

THE GOLDEN MEDICAL DISCOVERY.

HE IS AN EMBEZZLER

Secretary of Western Joint Traffic Bureau Short In His Accounts.

KILLED AT HIS DOORSTEPS

William O. Hutchins, a Jeweler, Shot Down by a Burglar Who Was Robbing His Residence—Four Miners Buried Alive Under Tons of Earth—Mine Caved In.

Chicago, March 9.—An investigation into the accounts of the Western Joint Traffic bureau, which has been going on for several days, has disclosed the fact that William H. Hosmer, secretary of the bureau, was short to the amount of about \$3,000. The disclosure incidentally may lead to the dissolution of the bureau and its reorganization.

Mr. Hosmer, after being faced with the proofs of his defalcation, made a confession to J. W. Midegley, chairman of the bureau. He admitted having taken the money, but claimed he had not intended to keep it and would ultimately have returned it. He said he had used the money in small amounts when he needed it for household expenses.

Hosmer has not been arrested. There is no disposition to prosecute him, and he is engaged in assisting the experts examine the books. He has asked Mr. Midegley to grant him another chance—to give him a clerkship—so that he may save from his salary to replace what he has taken. Already he has given Mr. Midegley a check for \$1,000 for that purpose.

Hosmer was connected with the bureau for 15 years and so implicitly did Mr. Midegley trust him that there never was an examination of the books.

KILLED AT HIS DOORSTEP.

William O. Hutchins Shot Down by a Burglar.

Providence, March 9.—William O. Hutchins, one of the best known manufacturing jewelers in the east, was shot and almost instantly killed by a burglar who had entered his residence early last night. The tragedy occurred in front of the victim's own doorstep. The burglar entered the house by a rear door and went to the servant's room from which he stole \$18. He then went into Mrs. Hutchins' room and was looking for valuables there when Mrs. Hutchins entered. She gave the alarm and her husband grasped a cane and started for the intruder. The burglar escaped to the front portico and dropped to the ground. Mr. Hutchins was there to meet him. He struck the fellow a blow with his cane. The burglar drew his revolver and shot Mr. Hutchins just over the heart. The wounded man lived just 15 minutes.

BURIED ALIVE.

Four Miners Lose Their Lives by the Caving In of a Mine.

Galeana, Kan., March 9.—Ernest Wright, William Walker and a son of Walker's and an unknown miner were buried alive late yesterday by the caving in of a mine on the Bonanza grounds. A large force of men were at work trying to get them out, but it is not likely that the bodies can be recovered for some time, as they are under tons of earth.

IN EXTRA SESSION.

Governor Pingree Issues a Proclamation Convening the Legislature.

Lansing, Mich., March 9.—Governor Pingree has issued a proclamation convening the legislature in extra session March 22. He cites provisions of the state constitution and the provisions of the legislature is required to provide a uniform rate of taxation, all assessments to be on property at its cash value.

Continuing, the governor charges that the spirit, if not the letter, of these constitutional provisions is being violated. Laws having been passed by which railroad, express, telephone and telegraph companies, now owning at least a third of the property within the state are required to pay only about 1-25 part of the taxes.

Governor Pingree urges that taxation in many parts of the state has become in the nature of confiscation and that the situation has become unbearable.

PECULIAR REASONS.

An Aged Couple Ask the Law to Separate Them.

Chicago, March 9.—A peculiar reason for a divorce was given yesterday in the suit brought by Mrs. Catherine O'Reilly, wife of Eugene O'Reilly, a retired merchant worth upwards of \$50,000. Mrs. O'Reilly alleges that for 12 years her husband has not spoken a word to her, although living under the same roof. This, she alleges, is tantamount to desertion. In addition she charges cruelty. Mr. O'Reilly has filed a cross bill alleging cruelty and voluntary desertion. Both are nearly 70 years old and have been married 43 years.

\$5,000,000 FIRE.

Almost Complete Destruction of Manila, Philippine Islands.

Vancouver, B. C., March 9.—Advices from the Orient, brought by the steamship Empress of India, tell of the almost complete destruction of Manila, Philippine islands, by fire. Property to the value of \$5,000,000 was destroyed.

Women, Boys and Girls Struck.

Cleveland, March 9.—About 400 women, boys and girls are affected by a strike at the Beckman woolen mills. They demand an increase of 10 per cent in wages. The company had agreed to grant the increase on April 1. The strikers insisted that it be given at once. This being refused the strike was ordered.

Weather.

Indiana and Ohio—Fair, followed by cloudy and threatening weather.

AERIAL TORPEDO BOAT.

New Invention Which May Cut a Figure in Case of War.

Sedalia, Mo., March 9.—Thomas J. Brown, train dispatcher for the Missouri Pacific railway at this point, has been notified by the commissioner of patents that he had been granted a patent on an aluminum aerial torpedo boat that may figure quite extensively in the event of war between the United States and Spain.

Mr. Brown began work at his invention two years ago and his application for a patent was filed in March, 1897. The boat is constructed of aluminum, is 120 feet long and 15 feet in diameter. Yesterday Mr. Brown instructed his attorneys at Washington to call upon Secretary Long of the United States navy, and make a proposition for the sale of the invention. Mr. Brown says: "We can deliver to the government at Washington an aluminum aerial torpedo ship, equipped for service, one capable of crossing the ocean if necessary, carrying enough explosives to sink any battleship or reduce a fortification; one capable of speed to exceed 20 knots per hour, for at least a week's time. The building expenses will not exceed \$10,000 each and can, after arrangements are made for such work, be completed in two or three weeks."

TAX COLLECTORS.

They Hold Up Six National Banks in Chicago.

Chicago, March 9.—Several Chicago bankers had a novel experience with tax collectors yesterday. Two men entered the First National bank and went directly to the office of the president. Without ceremony they addressed the vice president, D. R. Forgan, and informed him they wanted \$55,237.12 in cash as quickly as he could produce it. They told Mr. Forgan that unless he paid over the money without delay they would shut the doors of the bank and help themselves.

It is a case of the collection of taxes under a decision of the superior court, which refused to sustain an injunction asked for by the six banks against South Town Collector Ernest. The bill sought to enjoin the collection on the ground that the assessments were excessive and fraudulent. The banks affected were the First National, Fort Dearborn National, Northwestern National, Globe National, Bankers' National and National Bank of America. The bankers expressed great surprise, but all that was necessary was a sight of the warrant and the money was paid, but under protest.

MEXICAN PLACER GOLD.

Nuggets Worth \$5 Found Near the Old Coronado Mine.

El Paso, Tex., March 9.—The best specimens of placer gold of which there is definite information were brought in to Casas Grandes, Mex., by G. Rummel of San Antonio, Tex. These specimens are small nuggets, averaging in size from a pinhead to a pea. Mr. Rummel says that Mike Hennessey, a prospector working near him on William Julian's claim since Julian left, has found nuggets worth \$5 to \$6 each.

This gold comes from gray placers near the old Coronado mine, 14 miles from Tapache, Rummel has prospected at Crapple Creek, Unray and Leadville, and left Colorado last November to come down here. He has two partners, William Wiley of Riverside, Cal., and F. P. Blackman of Los Angeles, both old prospectors, and he says this is the finest country for prospecting he has seen anywhere. His partners remain at work, and he will return soon with supplies.

EXPRESS AGENT ABSCOND.

Takes With Him a Package of \$10,000 Confided to His Care.

Orrville, O., March 9.—The night agent of the Adams Express company at this place has absconded, taking with him an express package containing \$10,000. This package of money was sent by a Cleveland bank to a bank in Akron, but the package was carried through to this place. The day agent here received a message seeking information concerning this package of money and what had become of it. He wired them that he knew nothing of it as there was no record of it being received here, and that the night agent, Charles Cotton, was missing from his home and family and his whereabouts unknown. The Adams Express company offer a reward for his capture.

IGALLS CALLED HOME.

President of the B. & O. Compelled to Cut His Vacation Trip Short.

Mexico City, March 9.—President M. E. Igalls of the B. & O. and Chesapeake and Ohio railways, after a stay here of some days, returned home last night, having received advices which call him to his post of duty on account of the imminence of war.

John Jacob Astor and party, who came up Sunday night from Vera Cruz on Mr. Astor's yacht, leave today in a private car for Tampico, where they will again board their yacht and sail for New Orleans, whence they will proceed by rail to New York.

Philadelphia Record.

Philadelphia, March 9.—A syndicate formed by George H. Earle, Jr., and Richard Y. Cook has taken up the loans of \$5,000, secured by bonds and stock of the Lehigh Publishing company and held by P. A. B. Widener, William L. Elkins, James McMan and the Kumble estate. These securities, it is claimed, represent a quarrel of the Record property.

Weather.

HE TURNED FORGER

Printer Uses the Firm Name of the Noblesville Ledger Freely.

CONDITION OF WHEAT CROP.

Indeterminate Sentence Law Held to Be Constitutional by the Supreme Court. Charged With Embezzlement. Thieves Compel a Business Man to Sell His Store.

Noblesville, Ind., March 9.—P. W. Williams, alias M. P. Hamilton, a tramp printer who has been working here for the past 10 days, forged the firm name of Walker & Craig, publishers of The Ledger, to several checks, ranging from \$5 to \$25 each, had them cashed at different business houses and left in a livery rig. Williams claims to be a cousin of General Reuben Williams, an old newspaper man of Warsaw, Ind. He is about 5 feet 4 inches in height, his hair and mustache are white. He had a new hat and a suit of clothes of checked cloth when here. A liberal reward will be given for his arrest.

LAW UPHOLD.

Indeterminate Sentence Law Constitutional, Says the Supreme Court.

Indianapolis, March 9.—The supreme court has affirmed the case of George Miller against the state of Indiana by a bare majority. Judges Howard and Jordan dissenting. This case involved the constitutionality of the indeterminate sentence law, passed by the last legislature, and also the right of a prisoner who is unable to pay for a transcript of the record to require the court to furnish him one at the expense of the county, without regard to whether the judge believed there were any grounds for an appeal or not.

The court holds the law to be constitutional, and says that the refusal of the court to furnish a transcript to the prisoner at public expense is no reason for reversing the judgment of conviction.

SOLD HIS STORE.

Huntington Business Man Robbed Twenty Times.

Huntington, Ind., March 9.—William Mardenis, who owned a grocery in the east part of the city, has sold his place for a peculiar reason. During the past three months his store has been robbed not less than 20 times. Each time the robbers effected an entrance by using a skeleton key and always escaped detection. Mardenis said he could stand it no longer and sold out. The new proprietor will sleep in the store and watch for the burglars to repeat their visits.

CROP CONDITIONS.

Thawing and Freezing Has Been Injurious to Wheat.

Chesterfield, Ind., March 9.—Crop reports from farmers in this locality are not at all encouraging, especially as to growing wheat. The thawing and freezing of the last week has been very injurious. The fall drought retarded the growth, so that wheat entered the winter in poor condition. The meadows were also badly damaged, and it is not likely there will be a heavy hay crop. It is believed that cherries and peaches are killed.

New Incorporations.

Indianapolis, March 9.—The following new concerns have filed articles of incorporation with the secretary of state: The Terre Haute Oil and Lime company, capital stock, \$12,000; the M. Ziner company of New Albany, engines and boilers, capital stock, \$25,000; the Hooser Paper company, Kokomo, capital stock, \$15,000; the Farmers' Furniture and Carpet company of Evansville, capital stock, \$2,000.

Famous Canton Marion.

Marion, Ind., March 9.—The famous Canton Marion of the Patriarch Militant, which was allowed to become defunct has been reorganized. The organization had at one time become so prolific that it was barred from contests and after that the members lost interest. Some time ago it was decided to reorganize and that object has been accomplished.

Charged With Embezzlement.

Greencastle, Ind., March 9.—W. T. Scott, a real estate and loan agent, was placed under arrest yesterday on a charge of embezzlement, preferred by Ellen Hood, who alleges that he embezzled \$300 belonging to her. The defendant entered a plea of not guilty. Bond was placed at \$500.

Having a Pleasant Time.

Washington, Ind., March 9.—John Billmeyer, formerly of this city, the new minister to Zanzibar, South Africa, is now tearing the British Isles with his family, enroute to his post, according to a letter received here. They are having a pleasant time, and expect to reach Zanzibar early in April.

Deaf at the Insane Hospital.

Indianapolis, March 9.—Isaac Hugh Anderson of Clinton, Vermillion county, died suddenly at the Central Indiana hospital of hardening of the blood vessels of the brain. He has been at the hospital since March 1.

W. C. T. U. Meeting.

Anderson, Ind., March 9.—The executive committee of the Indiana W. C. T. U. is holding its mid-year meeting in this city. Several important papers will be read before the meeting.

Only Two Criminal Cases.

Anderson, Ind., March 9.—There being but two minor criminal cases to come before the Dekalb county court, Judge Roby has ordered that the grand jury shall not be called.

Justice of the Peace Missing.

North Liberty, Ind., March 9.—Stephen Bala, a well known citizen and justice of the peace at this place, has been missing for two weeks.

PANTHER IN A MINE.

Workmen Become So Frightened That They Quit Work.

Doylestown, O., March 9.—There is great excitement here over the fact that a panther or wildcat has taken refuge in the Mobile coal mine. One of the drivers declares that he was chased by the panther, and that to save himself he was forced to jump into a ditch filled with filthy, black water. The majority of the men employed in the mine have become so frightened that they have quit work, and declare that they will never return until the panther, or whatever it is, is killed. The men fear that the animal is at the point of starvation, and they fear that hunger will cause it to attack them sooner or later.

TO START A COLONY.

Citizens of Kentucky Will Try Their Fortunes in Washington.

Knox, Ky., March 9.—A party of 20 persons from this, Laurel and Whitley counties have left here enroute for Rosalia, Whitney county, Washington. It is the intention to form a colony there. S. B. Seiler of this county, went to Washington about three months ago. He was so well pleased with the country that he returned home and induced the other members of the party to go back with him.

Each man will buy 100 acres of land, which sells from \$12 to \$25 per acre. Susie Rogers and George King, members of the party, were married while waiting for a train. There were six women in the party.

Pensions Granted.

Washington, March 9.—Pensions have been granted to the following Indians: Original—Adam Burgraf, Plymouth; \$10; William Lafont, Brook; \$6; Isaac A. Harvey, Lafayette, \$8. Additional—William H. Winters, Indianapolis; \$6 to \$8; Riley R. Miller, New Haven, \$4 to \$8. Supplemental—James H. Segbert, Anderson, \$2. Increase—Allen Brassfield, Victor, \$16 to \$17; Frank Pierce, Lafayette, \$4 to \$8; Frederick Cook, Delaware, \$6 to \$8. Reissue—Deth White, Napoleon, \$14. Original Widows, Etc.—Elizabeth Baker, Wabash, \$12; Mary Gerbing, Branswick, \$8; Anna E. McMinn, Richmond, \$8. Reissue and Supplemental—Bridget Dunn, Alexandria, \$4; Mexican War Survivor (Increase)—Morrison Gordon, Campbellsburg, \$8 to \$12.

Indiana Postmasters.

Washington, March 9.—Indiana postmasters were appointed yesterday as follows: Cambria, Samuel A. Heiser; Hicks, Mrs. Eliza Shadzy; Silas, Mrs. Kate Templeton.

Wants None but Canadians.

Ottawa, March 9.—James McMillen, M. P., has given notice of a bill which provides that only British subjects can hold mining properties in Canada and they must have been a resident in Canada at least 12 months prior to the recording of their claim.

The two daughters of R. M. Cross,
Katie and Carrie, died at their home
about 2 1/2 miles northeast of here last
Friday March 4, 1898. Carrie breathed
her last at 9:00 a. m. and Katie four
hours later at 1 p. m., both of con-
sumption. Katie was almost at her 19th
birthday while Carrie was almost at her
15th. They were the most highly re-
spected young ladies of the community
and none knew them but to love them.

They were both consistent members
of the Christian church of this place.
The funeral services were held at the

A FUNNY INCIDENT.

A FRAGMENT OF HISTORY THAT IS
FULL OF HUMOR.

Colonel Horn's Letter to General Logan
Explaining an Attack on Grant—Shan-
non, His Associate, Was an Ambitious
"Fried Chicken Eater."

Mrs. John A. Logan once gave to a
newspaper reporter in this city a letter
from a southern editor that created a
lot of talk. It was immediately after
the death of General Grant. The re-
porter had gone to the Logan residence
to interview the general about some
matter then before congress. The gen-
eral was in bed, and the reporter was
shown to his room. In the course of the
evening Mrs. Logan entered the bed-
chamber and took part in the conver-
sation. In her hand she held a letter, the
contents of which her husband knew
about. She wanted to give it to the re-
porter, but the general objected. But as
the newspaper man started to leave
Mrs. Logan slipped the envelope into his
hand. The next morning nearly every
newspaper in the country printed a
copy of it. It was a rare and racy
document.

Colonel Alexander G. Horn of Meridi-
an, Miss., then the editor of The Daily
Mercury, was its author. The letter
was intended as an explanation of an
editorial that had appeared a few weeks
before in The Mercury. Colonel Horn
and J. J. Shannon were associates in
the publication of the aforesaid journal.

On the morning following the death of
the hero of Appomattox The Mercury
contained one of the most cruel articles
about General Grant ever printed by a
press. It dared any true southerner to
grieve or show signs of sorrow over his
demise. It called upon the people of
Dixie land to exult and rejoice at the
death of the man who had slain their
sons and burned their homes. The peo-
ple of Meridian were astounded. They
went to the editor, Colonel Horn, and
asked him, in the name of peace, to
write another article withdrawing it. He
was obdurate and instead of doing as
his neighbors wished dictated another
one equally as fierce as the first.

At that moment the name of Colonel
Shannon was before the senate awaiting
confirmation as postmaster at Meridian.
An enemy of his, knowing the love that
General Logan had for General Grant,
inclosed copies of the paper to him, ex-
pecting that Logan would oppose Shan-
non's nomination. Shannon and Horn
had a dispute over the editorial, and
their relations became so strained that
a street duel was only averted by the
interference of mutual friends. Colonel
Horn's letter to General Logan was to
the effect that Colonel Shannon was in-
nocent of the article and had known
nothing about it until he saw it in the
paper. I cannot quote the letter with
literal exactness, but a part of it was as
follows:

"No; Shannon had nothing to do
with it. In the first place he hasn't
sense enough to conceive such a senti-
ment as was expressed in the editorial
and if he had he would be too cowardly
to write it. He is my partner. I am sor-
ry to say, but by making him postmaster
you will afford me the opportunity of
getting rid of him.

"And why not take him, John? There
is a mighty narrow strip between the
radical republicanism that you repre-
sent and the Cleveland Mugwumpery
that Shannon tries to represent. He is
not a Democrat, never was and never
will be. I predict that you will soon
have him over on your side, and God
speed the day! We Democrats down
here don't want him.

"I am growing old, but I am still in
possession of my mental faculties, and
I hope to live many years longer to tell
the truth from day to day about the
despised Yankees and their politics. I
am seriously afflicted with hemiplegia,
else I would have mauled him—I out of
Shannon long ago.

"Logan, you ought to remember me
as one of the fellows that figured some-
what conspicuously in the Kemper
county trials. I guess I can take the
credit to myself of having had the Dem-
ocrats who killed the Radicals there
acquitted before the courts. I would like
another job of the same kind.

"You and I ought to be friends. Op-
posites beget liking. You have been a
brother of a boy in your party, and I have
been a school of a fellow in mine."

General Logan replied good natured-
ly to this epistle, after which a friend-
ly correspondence sprang up between
the erratic genius at Meridian and the
senator. Logan read the Shannon letter
in the committee room of the senate,
and then laughingly said that inasmuch
as his friend Colonel Horn wanted
Shannon confirmed he didn't see how
he could oppose him. Colonel Horn,
unreconstructed, has long since passed
into silence, and a few years later Colo-
nel Shannon was buried at his old
home in Paulding, Miss., a town once
made famous by the publication of The
Weekly Clarion, many years ago, of
which paper he was one of the founders.
During the Sullivan-Kirkland trial at
Purvis some years ago I sat at the break-
fast table with Sullivan and Colonel
Shannon. Sullivan ate three fried chick-
ens, Shannon four. Charlie Rich, the
great sportsman, got the two to enter a
fried chicken eating match. Some one
asked Sullivan how many he thought
he could get away with, and Sullivan
said about eight.

"Eight!" spoke up Shannon. "Well,
you may have to do better than that.
You may be the champion prizefighter,
but you will have to whet up that ap-
petite of yours before you can take
away the chicken eating champion-
ship."

The chickens were bought and cleaned
and were ready for the iron when the
colonel was taken violently ill. Before
he could recover Sullivan was out of
the state.—James S. Evans in Chicago

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work. For we all use the same kind of printing-out paper, and tone in the same kind of gold and aristo platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way.

We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum.

We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

RESULT OF THE PRIMARY.

A WINNING TICKET NAMED BY THE PARTY TUESDAY.

The Nominees are All Well Known Citizens and the Kind of Hustlers that Will Get There at the May Election.—Analysis of the Vote.

The primary election yesterday passed off very quietly. Rather a large vote was polled for such an election, more than fifty more votes being cast than were cast by the republicans at the regular city election in May, 1896. The result, though not as every one voted, meets the approval of the party generally, and will prove a winner at the regular city election.

The table following shows how the votes were cast in the several wards of the city.

Table with 6 columns: WARD, 1st, 2d, 3d, 4th, 5th, Tot. Rows include Mayor, Marshall, Clerk, Treasurer, City Judges, Councilmen, and various candidates.

The nominees need no introduction to the people of Seymour as they are all well known citizens, worthy the support and confidence of the people. Several of them have already had experience in the management of the affairs of the city and have proved themselves capable and reliable. Every man nominated is proud of Seymour and the progress she has made in the past and will continue that loyal support such as should characterize every resident of the city. We predict the triumph of the ticket at the May election by large pluralities than have ever been given at a previous election in Seymour.

Court Decisions.

City of Seymour vs. George A. Robinson Jr., as county surveyor in the matter of the McDonald ditch.—Finding for the defendant and the city was ordered to clean the ditch annually.

State vs. Charles Wilson petit larceny fined \$5.00 sentenced to one year at the reformatory at Jeffersonville and disfranchised for one year.

Edward McCammon was granted a divorce from Della McCammon.

Lila Butt vs. Henry B. Butt, mortgage foreclosed on Brothersville property and judgment rendered for \$312.25.

Seymour National Bank vs. Henry Kaepfelin and Anton Massman judgment on note \$229.52.

Stephen Fourniaia, administrator of estate of Thomas Fountain vs. Sarah E. Fountain, real estate divided.

Morse B. Singer, administrator estate of Frederick Tormohlen vs. George F. Tormohlen, judgment for \$2,472.25.

There was no business before the circuit court Tuesday.

The petit jury was discharged yesterday for the term. Only one trial by them during the term.

RAILROAD RUMBLINGS

The B. & O. S. W. has a contract to haul 4000 more cars of corn from the Q connection to Baltimore.

Baggage master Charles Johnson, of the B. & O. S. W. has taken the position of brakeman. He is a bachelor.

G. A. Richard and George Vantage, of the Southern Indiana, were in the city this morning in the interest of the line.

The gross earnings of the B. & O. S. W. for the month of February was \$523,138, an increase over the gross earnings of the line for the same time last year of \$60,871. This is certainly a healthy business.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonette) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and silver into platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then, if you desire to pay higher prices for no better work, it is your privilege to do so.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength. Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial.

It will revive their spent energies, refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief and, with perseverance, permanently cures.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the way like the bladder was created for one purpose, and if not doctor'd too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the R. F. PUBLICATION and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pains in this offer.

THE AMERICAN MONTHLY REVIEW

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, rogues, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Hall's Family Pills are the best.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—John Edgar, Germantown, Cal. For sale by C. W. Milhaus.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the way like the bladder was created for one purpose, and if not doctor'd too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, see your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy in soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. THE AMERICAN MONTHLY REVIEW

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

ENTHUSIASTIC HOUSE SCENES

Nothing Is Yet Officially Known as to the Cause of the Maine Disaster—Bury Bodies Urging Mr. Lee to Resign. President Said to Be Considering a Flying Squadron.

Washington, March 9.—In a spirit of patriotism, with eloquent words ringing in their ears, every member of the house of representatives yesterday responded to the president's first call to meet the Spanish situation by casting his vote for a bill placing in the president's hands \$50,000,000, to be expended at his discretion for the national defense. Party lines were swept away and with a unanimous voice congress voted its confidence in the administration. Many members who were paired with absent colleagues took the responsibility of breaking their pairs—an unprecedented thing in legislative annals—in order that they might go on record in support of this vast appropriation to maintain the dignity and honor of their country. Speaker Reed, who, as the presiding officer, seldom votes only in case of a tie, had his name called and voted in his capacity as a representative.

Scene of Enthusiasm.
The scene of enthusiasm which greeted the announcement of the vote—ayes 311; nays none, has seldom been paralleled in the house. All day long the galleries were jammed with enthusiastic spectators applauding to the echo the sterling patriotism of the words of eloquence which were uttered by the members on the floor. All the speeches were brief. In all 59 speeches were made. With one exception, members from the north and south, the east and west, the states and the territories, battle scarred veterans of the Union and the confederate armies, all joined in proclaiming their support of the country's chief magistrate in the face of a possible foreign war.

General Grosvenor of Ohio said that if war did not come, the \$50,000,000 appropriated by this bill would be wisely expended if it only served to show the world that when threatened from without the hearts of the American people beat as one.

One Discontented Note.
In the whole debate there was only a slight discordant note, caused by the speech of General Bingham of Pennsylvania, a gallant soldier who served with distinction under Hancock. He spoke too conservatively for the aroused temper of the house and when he insisted that our relations with Spain were as friendly as they had been for years, many members hissed him.

While almost every member who spoke deprecated the possibility of war, a wide divergence of opinion as to how close were hostilities manifested itself in the debate. The general contention by the majority, among them leaders on both sides, was that this appropriation, by preparing for war, would prove the surest guarantee of peace. Others insisted that war's alarms would soon be heard, and Mr. Mann of Illinois declared that war actually existed in all save name.

Immediately after the vote was announced the bill appropriating \$50,183,000 was sent to the senate and that body referred it to the appropriation committee.

CONSUL GENERAL LEE.
He "Will Stick By the Ship Until the Clouds Roll By."
Havana, March 9.—Some persons here in order to increase the excitement, are urging General Fitzhugh Lee to resign, but the consul general of the United States said to a correspondent: "I will stick by the ship of state until the clouds roll by."

The resignation of Walter B. Baker, United States consul at Sagua La Grande, was confirmed yesterday. Mr. Baker has been on the verge of nervous prostration. Alexander O. Brice, the United States consul at Matanzas says he cannot stand much longer the strain under which he has lived the last two years.

The Bache left yesterday for the Tortugas islands to resume her coast survey work. The Fern will be replaced by the United States cruiser Montgomery which is to arrive here today. The crew of the Fern have been unable to wash her decks recently owing to the filthiness of the harbor water, and must clean up at sea in order to avoid sickness among the crew.

FLYING SQUADRON.

President Said to Be Considering One. Commander Schley Will Command.

Washington, March 9.—The administration is considering the formation of a flying squadron. Naval officers have planned such, and the matter is before the president. Such a squadron will be composed of the fleetest and most powerful aggregation of warships ever commanded by an American officer. The armored cruiser Brooklyn, 21 knots, is to be the flagship; the Minneapolis, 23 knots; the Columbia, 21 knots, and the St. Paul and St. Louis of the American line, 21 knots each, will compose the remainder of the fleet. Commander Winfield Scott Schley, of Arctic fame, will be in command.

GENERAL WILSON.

Key West, March 9.—General Wilson, who arrived here yesterday, it is understood, will return to Tampa today and will not visit the Tortugas.

NOTHING OFFICIALLY

Is Yet Known as to the Cause of the Maine Disaster.

Washington, March 9.—Three weeks ago last night the Maine was blown up. As it was last week at this time, so it is now; nothing is known officially as to the cause of the disaster. The court is hard at work; that is all that is known at the navy department. It is not even known when it may be expected to finish its work. But the importance of its report does not diminish in the slightest degree by the lapse of time, and in the midst of diversions caused by more recent happenings, the more thoughtful officials have not lost sight of the fact that when the report of the court of inquiry comes to the navy department the government may be face to face with another and vital issue.

Senator Du Bose called at the state department late in the day and had a half hour's conference with Judge Day. He brought no dispatches and the talk did not relate to the present strained condition of affairs, but was rather an informal discussion of the condition of affairs in Cuba.

The new Spanish minister, Senator Polo y Bernabe, will arrive in New York today on a German line steamer. He is expected at the legation tomorrow and arrangements will then be made for the presentation of his credentials to President McKinley.

FRIENDLY WORDS.

Great Britain Should Express Her Determination to the United States.

London, March 9.—Sir George Williams Des Voeux, formerly governor of the Bahamas islands and more recently governor of Hong Kong, in an interview on the far eastern crisis said Great Britain ought to immediately seize the opportunity of expressing cordial sympathy with the United States in her efforts to secure autonomy for Cuba.

The time, he said, was opportune to express the determination of Great Britain to aid the United States against her foe against any attack upon her coast. This Sir George Des Voeux added, would prevent war with Spain and would make general the American sympathy with Great Britain which was now only partial. This, he concluded, would be enormously to the advantage of both nations, while also assisting in the solution of the Chinese question. He remarked in conclusion that such an opportunity of "announcing the two English speaking nations may never recur."

Sold Explosives to Weyer.
Birmingham, Ala., March 9.—Captain G. H. Hamilton, general manager of the Dittman Powder company of N. W. York is visiting in this city. He confirms the report that the Dittman concern sold explosives to Weyer's agents in November, 1896. Captain Hamilton does not know for what purpose the explosives were used.

OHIO LEGISLATURE.
Bill Introduced to Tax Paid-Up Building and Loan Stock.

Columbus, March 9.—The senate has passed Mr. Williams' bill pairing capitalized and incorporated companies in the state to have three citizens on the board of directors and when not capitalized a majority.

Among the bills introduced was one by Mr. Hess to tax paid-up building and loan stock and requiring the secretaries to return the names of such stockholders to the county auditor.

Mr. Dutton passed up a bill giving state banks the same privilege as national banks in electing directors. It increases the maximum number of directors from five to nine.

Dr. Draper Elected.
New York, March 9.—Dr. Andrew S. Draper, president of the University of Illinois, was yesterday elected city superintendent of schools at a salary of \$8,000 a year, receiving 14 votes of members of the school board to one vote cast for W. H. Maxwell, the present superintendent of schools at Peoria.

There is implanted in every man a love of life strong enough to make him tremble and kneel in some violent death when he is thoroughly recognizes its approach. The trouble with men is that they do not recognize death unless it comes in some violent or rapid form. Consumption kills more men than wars, famines, plagues and accidents, but its approach is insidious, and men do not realize that they are in its clutch. While consumption is a germ disease, the bacilli will not invade sound and healthy lungs. The lungs must first be in a diseased condition. First a man feels a little out of sorts. Probably he overworked and has foregone too little time to eating, sleeping and resting. His appetite falls off. His digestion gets out of order and his blood does not receive the proper amount of life-giving nutriment. The liver becomes torpid and the blood is filled with impurities. These are pumped into every organ of the body, building up unhealthy, half-dead tissues. The most harm is done at the weakest spot. The "Golden Medical Discovery" promptly cures the blood, builds new and healthy flesh and drives out all impurities and disease germs. It cures weak lungs, spitting of blood, obstinate coughs and kindred ailments. No honest druggist will recommend a substitute.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I had a pain in my side all the time, had but little appetite and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite and increased my weight."

Consumption kills more men than wars, famines, plagues and accidents, but its approach is insidious, and men do not realize that they are in its clutch. While consumption is a germ disease, the bacilli will not invade sound and healthy lungs. The lungs must first be in a diseased condition. First a man feels a little out of sorts. Probably he overworked and has foregone too little time to eating, sleeping and resting. His appetite falls off. His digestion gets out of order and his blood does not receive the proper amount of life-giving nutriment. The liver becomes torpid and the blood is filled with impurities. These are pumped into every organ of the body, building up unhealthy, half-dead tissues. The most harm is done at the weakest spot. The "Golden Medical Discovery" promptly cures the blood, builds new and healthy flesh and drives out all impurities and disease germs. It cures weak lungs, spitting of blood, obstinate coughs and kindred ailments. No honest druggist will recommend a substitute.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I had a pain in my side all the time, had but little appetite and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite and increased my weight."

Dr. Draper Elected.
New York, March 9.—Dr. Andrew S. Draper, president of the University of Illinois, was yesterday elected city superintendent of schools at a salary of \$8,000 a year, receiving 14 votes of members of the school board to one vote cast for W. H. Maxwell, the present superintendent of schools at Peoria.

There is implanted in every man a love of life strong enough to make him tremble and kneel in some violent death when he is thoroughly recognizes its approach. The trouble with men is that they do not recognize death unless it comes in some violent or rapid form. HOUSTON.

L. A. Ackerman and wife were guests at his father-in-law's at Clearspring over Sunday.

Wintrey Lutes and Ora Hinkler and their best girls spent Sunday at Elkinsville.

David Summa has purchased his mother's farm about two miles north of here for \$200.

Dr. D. J. Cummings went to Indianapolis last week to see his son Joseph who is attending the medical college there.

We learn that there were four successful candidates on graduation examination, namely: Lemma Brown and Julia Berry, of Houston, Jackson Noe and Laura McKain, of Freetown.

The spring term of school which will be conducted here by Prof. L. A. Ackerman is in good prospect for a very large attendance. Those intending to attend school this spring will do well to come to Houston.

The two daughters of R. M. Cross, Katie and Carrie, died at their home about 2 1/2 miles northeast of here last Friday March 4, 1898. Carrie breathed her last at 9:00 a. m. and Katie four hours later at 1 p. m., both of consumption. Katie was almost at her 19th birthday while Carrie was almost at her 15th. They were the most highly respected young ladies of the community and none knew them but to love them.

They were both consistent members of the Christian church of this place. The funeral services were held at the residence Sunday at 10 a. m. after which the remains were interred in the Lutes cemetery, both side by side in same casket. The family have the sympathy of their many friends.

PEARIDGE.

Bible reading every Sunday morning James Gregg, who has been sick with pneumonia is better.

The Weddellville high school class is progressing nicely.

Rev. Maupin preached at the M. E. church Sunday night.

Luther Harrell will move back to his home near Ray's church next week.

Whitney Gilbert and his son, Oliver, bought the farm formerly owned by J. J. P. Henderson.

Esworth Thompson moved from Indianapolis to the farm of D. M. Hughes, where he formerly lived.

CORTLAND.

Wm. Gart and sister Lizzie were visiting here last Sunday.

Lawrence Denny, of Freetown, and Miss Minnie Meyers, daughter of Wm. Meyers, were married last Sunday.

Institute convened here last Saturday in regular session. It was the last one of the season. Teachers all present.

A large crowd gathered at the church last Sunday night at prayer meeting. Dr. Whitted led the meeting.

Perry Collins is again a citizen of this town, having moved here last week to work on the section of the S. I. railroad.

L. N. Wiseman who is in the employ of J. W. Holmes, hauled a load of corn one day last week that weighed out 75 bushels.

Geo. Hartwell, of Cortland, and Miss Verona McMillan, of Goss Mill, were married at that place one day last week.

Wyatt Patrick who has been the employ of C. C. Isaacs for several years has moved to the farm of Wm. Rhodes on White Creek.

The "Old Woman" referred to in the Hummer's item in the Banner last week did her an injustice. She is an accomplished lady of the Friends church and it is a rare chance that Cortland is blessed with as able a woman as she gave. She is holding a revival at Rockford with great success.

THE NEW WAY.

WOMEN used to think "female diseases" could only be treated after "local examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their suffering. The introduction of

Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure

McElree's Wine of Cardui

taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles"—disordered menses, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

W. L. ADDISON, M.D., Cary, Miss., says: "I use Wine of Cardui extensively in my practice and find it a most excellent preparation for female troubles."

FREETOWN.

Mrs. Anna Hand, of Bedford, is visiting her daughter, Mrs. N. J. Hartbaugh.

Mrs. Myrtle McMahan has a severe attack of fever. Mrs. May Huber is also on the sick list.

We shook hands with our old friend, Solomon Thompson, Friday as he passed over the S. I. R. R.

The Hawthorn family left here Sunday for Vallonia where they expect to spend one week.

Mrs. Mary Brook started to Carmi, Ill., Monday on a two weeks' visit among friends and relatives.

Newton Plummer, of Medora, was visiting his cousin, Miss Laura Henderson, the past week and advertising the portable pantry for which he is agent. L. M. Cross departed Monday for his home in Carmi, Ill. He was accompanied by Joseph N. White who will visit his aged mother and other relatives in that section.

The drawing for the fine parlor lamp took place at the O. K. Grocery on the evening of March 21. Floyd Cross, a little son of S. Z. Cross, held the lucky number.

Some drunken boys took in the town Sunday night and as usual committed some depredations for which the law should be put in force. Hereafter the names of such persons will be given to the public.

On Thursday night some drunken hoodlums after the dance at the hall made themselves more despicable by cutting down shade and ornamental trees in front of H. F. Noe and S. L. B. Moore's residences and damaging the cupola in course of construction for the U. B. church. It is said the parties are known and will be dealt with accordingly.

A FUNNY INCIDENT.

A FRAGMENT OF HISTORY THAT IS FULL OF HUMOR.

Colonel Horn's Letter to General Logan Explaining an Attack on Grant—Shannon, His Associate, Was an Ambitious Fried Chicken Eater.

Mrs. John A. Logan once gave to a newspaper reporter in this city a letter from a southern editor that created a lot of talk. It was immediately after the death of General Grant. The reporter had gone to the Logan residence to interview the general about some matter then before congress. The general was in bed, and the reporter was shown to his room. In the course of the evening Mrs. Logan entered the bedroom and took part in the conversation. In her hand she held a letter, the contents of which her husband knew about. She wanted to give it to the reporter, but the general objected.

ALPHA GOX, Seymour, Ind.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printout paper, and tone in the same kind of gold and artists platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

40 YEARS THE STANDARD

RESULT OF THE PRIMARY.

A WINNING TICKET NAMED BY THE PARTY TUESDAY.

The Nominees are All Well Known Citizens and the Kind of Hustlers that Will Get There at the May Election.—Analysis of the Vote.

The primary election yesterday passed off very quietly. Rather a large vote was polled for such an election, more than fifty more votes being cast than were cast by the republicans at the regular city election in May, 1896. The result, though not as every one voted, meets the approval of the party generally, and will prove a winner at the regular city election.

The table following shows how the votes were cast in the several wards of the city.

		WARDS				
		1st	2d	3d	4th	5th

The nominees need no introduction to the people of Seymour as they are all well known citizens, worthy the support and confidence of the people. Several of them have already had experience in the management of the affairs of the city and have proved themselves capable and reliable. Every man nominated is proud of Seymour and the progress she has made in the past and will continue that support such as should characterize every resident of the city. We predict the triumph of the ticket at the May election by large pluralities than have ever been given at a previous election in Seymour.

Court Decisions.

City of Seymour vs. George A. Robinson Jr., as county surveyor in the matter of the McDonald ditch.—Finding for the defendant and the city was ordered to clean the ditch annually.

State vs. Charles Wilson petit larceny fined \$5.00 sentenced to one year at the reformatory at Jeffersonville and disfranchised for one year.

Edward McCammon was granted a divorce from Della McCammon.

Lila Butt vs. Henry B. Rapp, mortgage foreclosed on Brothersville property and judgment rendered for \$312.23.

Seymour National Bank vs. Henry Kasperlin and Anton Massman judgment on note \$229.32.

Stephen Fountain, administrator of estate of Thomas Fountain vs. Sarah E. Fountain, real estate divided.

Morse B. Singer, administrator estate of Frederick Tornohlen vs. George F. Tornohlen, judgment for \$247.25.

There was no business before the circuit court Tuesday.

The petit jury was discharged yesterday for the term. Only one trial by them during the term.

RAILROAD RUMELINGS

The B. & O. S. W. has a contract to haul 4000 more cars of corn from the Q connection to Baltimore.

Baggage master Charles Johnson, of the B. & O. S. W. has taken the position of brakeman. He is a bachelor.

G. A. Richard and George Vantage, of the Southern Indiana, were in the city this morning in the interest of the line.

The gross earnings of the B. & O. S. W. for the month of February was \$523,138, an increase over the gross earnings of the line for the same time last year of \$60,871. This is certainly a healthy business.
